

WISCONSIN POINT SERIES RULES

Each participating club will hold one match per calendar year designated as a Point Series match.

No Points Series club match shall be scheduled during USPSA Nationals, Area 5, or Wisconsin Section matches. If it is scheduled, it will not be considered a Point Series Match. Any conflicts in scheduling may be mediated by the Section Coordinator.

The only requirement to participate in the Wisconsin Points Series is that the competitor must be an active USPSA member. Residency within the WI Section is not required.

Competitors may join the Point Series at any time during the year; however, only the Point Series matches from the time of the paid entry forward will count.

PARTICIPATION CREDITS

Participants will receive one (1) credit for each Point Series match attended, including the WI Section match.

POINTS

Points awarded in the Wisconsin Points Series shall accrue in the following manner for each competitor:

At each Point Series match, the winner of each division will receive 20 points for coming in first place - regardless of the number of competitors enrolled in each division. The competitor coming in second place will receive 19 points; third place will receive 18 points, etc. Competitors finishing beyond 20th place will receive 0 points.

The Wisconsin Section match will earn the same points as a regular Point Series club match, with the winner in each division receiving 20 points; second place earning 19 points; third place earning 18 points, etc.

The Section shall count up to the best seven of eleven designated Point Series matches, which includes the WI Section match, to determine the Point Series final results.

In the event of a tie, finish will be determined by the match placement at the Wisconsin Section Championship.

In the event of a competitor DQ, there will be no points awarded for the match. If a competitor is unable to finish for any other reason they will receive last place points in their division. The competitor will, however, still earn the match credit for attending the match.

CHANGING DIVISIONS DURING THE SEASON

Shooters may change divisions during the year. Point series match points for the previous division will be forfeit and only the new division matches from the time of the change forward will count. Credits for the matches attended prior to the change in divisions for the prize drawings and for slots will still count.

ELIGIBILITY FOR NATIONALS SLOTS

To be eligible for a Nationals slot, a participant must earn a minimum of three (3) participation credits and have at least three (3) competitors in their division.

NATIONAL SLOTS DISTRIBUTION

National Slots will be distributed as follows.

Single Stack and Revolver slots:

Nationals slots (if available) will first be offered to the division winners.

If the division winner for each respective Nationals is unable to attend or has already earned a slot, the slot will then be passed down to the next eligible competitor in the same division according to final points results.

Slots still available after all division competitors have been offered a slot will be offered to the remaining Point Series competitors based on final points results, regardless of division. If there is a tie between individuals, the slot will first be offered to the competitor in the division with the highest participation.

Slots still available after all members of the Point Series have been offered a slot will be given to the Section affiliated clubs based on their activity report from the previous calendar year. All unused slots will be returned to the Section Coordinator for redistribution at his/her discretion.

Handgun (Open/Prod/Limited/L10) slots:

National slots (if available) will first be offered to the division winners corresponding to the respective Nationals according to how/if the divisions are paired up. (ex. Open/Production Nationals will first be offered to division winners in Open and Production) The slot will first be offered to the division winner in the division with the highest participation. The highest participation is determined by adding up all competitors final points in each respective division.

If the division winners for each respective Nationals are unable to attend or have already earned a slot, the slot will then be passed down to the next eligible competitor in the same respective divisions according to final points results. If the remaining division competitors tie, the slot will first be offered to the division winner in the division with the highest participation.

Slots still available after all competitors in the respective divisions have been offered a slot will be offered to the remaining Point Series competitors based on final points results, regardless of division. If there is a tie between individuals, the slot will first be offered to the competitor in the division with the highest participation.

Any remaining Nationals slots still available after all members of the Point Series have been offered a slot will be given to the Section affiliated clubs based on their activity report from the previous calendar year. All unused slots will be returned to the Section Coordinator for redistribution at his/her discretion.

AWARDS

All USPSA recognized and provisional divisions will be recognized in the Wisconsin Points Series with division winners receiving an award.

All classes within a division will be recognized at the Wisconsin Points Series matches; however, there must be three (3) competitors within a class before an award will be given for that class by the Section.

Each competitor's national class ranking shall be determined at the conclusion of the final scheduled Point Series match of the year.

PRIZE DRAWING

All participants in the Point Series will be included in a random prize drawing for a firearm, which is purchased by the Section. Participants will receive one prize entry for entering the Point Series, one entry for each Point Series match attended, two entries for attending the Section match, and one entry for attending the Point Series party at the end of the season.
