Match Directors Welcome

Welcome to the 2007 Wisconsin Section Championship Match hosted by Holmen Practical Shooters. I'm pleased that we were again able to bring this event to Holmen. Every effort has been made to design quality stages that'll test everyone's ability regardless of their classification. I know the hard work that you put in to prepare for this match and I am confident you'll be able to say that you had the opportunity to test yourself against some of the best practical shooters in the nation. This match would not be possible without the generous contributions of time and effort from the match staff. Many have already spent countless hours to help make this championship match a success. When you see these volunteers around the range, remember to take a moment to say thanks. Remember to also say thanks to our sponsors. They have been very generous in their support of our match. When making your next purchases, consider them first. By purchasing from our sponsors, you not only show your appreciation, you also help secure sponsorship for future matches. I wish you the best and hope you enjoy the match.

Thank you,

Ronnie Casper

Match Briefing

THESE POLICIES ARE JUST AS IMPORTANT AS THE RULES. YOU ARE EXPECTED TO READ AND UNDERSTAND ALL THE CONTENTS OF THIS MATCH PUBLICATION. QUESTIONS WILL BE ANSWERED AT THE SHOOTER'S MEETING.

COLD RANGE...Holmen Rod & Gun Club is a cold range. Firearms will not be handled anywhere on the range except in designated safety areas or under the direct supervision of a certified staff Range Officer. Handling firearms in parking areas is deemed unsafe gun handling.

SAFETY AREAS...Safety areas are located around the range to unbag and holster or unholster and bag guns, and also for dry fire practice and gun repair, etc. No ammunition may be handled in any safe area. Safety areas will have a generous 'foot-fault' box immediately behind the table area. If you are standing in the box (even partially), you are considered to be in the safety area.

RULES...The match rules are found in the USPSA Practical Shooting Handbook, Current Edition.

OBEY YOUR R.O.'S...Range Officers are here to assist you in completing a safe shooting contest. If there are indications that you are becoming unsafe, attempts will be made to warn you. If your gun handling has become unsafe, you will be stopped. When you hear **STOP!** You should immediately **STOP** with the gun muzzle pointing safely down range, finger outside the trigger guard, safety on, and await further instructions.

SET STEEL & TAPE TARGETS...Competitors are expected to stay together as a squad, and if requested, to tape, set steel, and help maintain efficiency on each stage.

LOST BRASS...As a matter of efficiency, all brass collected from the Holmen Rod & Gun Club range is deposited in the designated range pail. Brass is distributed to the range officers at the conclusion of the match in consideration for their hard work.

ALCOHOL...Alcohol and recreational drugs may not be consumed anywhere on the range. Competitors violating this policy will be disqualified and asked to leave the range.

DRESS CODE...Practical shooting is a sport. No controversial slogans or other items of dubious taste are to be displayed or worn. The Match Director will be the final arbiter of dubious taste.

SCHEDULING...Competitors must compete for score according to the published match and squadding schedule. A competitor who is not present at the scheduled time and date for any stage may not attempt that stage without the prior approval of the Match Director, failing which the competitor's score for that stage will be zero.(6.6.1). Occasionally, stages will clear squads early. If your entire squad is available and the CRO approves, the squad will be allowed to shoot ahead of schedule only on the scheduled date.

Match Briefing (cont)

INSPECTION...When the entire squad is assembled, a brief stage walk-through will be given, followed by a five-minute inspection and question period. Shooters may additionally negotiate obstacles while the previous competitor's targets are being scored. Early inspection is permitted by the squad next scheduled to shoot a stage, providing that the previous squad is finished, and you turn in your score sheets to the Range Officer prior to inspection, and only if time permits. Please have the courtesy to stay off the stages until it is your squad's scheduled turn to shoot.

TIME TO SHOOT...The range is closed to all regular competitors prior to the scheduled match opening April 21st, 2007. No shooting will commence before 8:00 a.m. by club rules. When called to the line, competitors are expected to load and make ready quickly. Shooters not ready within a half-minute prep time may be asked to move aside for the next competitor. If you show up without your gun or gear when your name is called, your score sheet goes to the bottom of the pile.

HAZARD AREAS...Safety flagging will identify areas beyond which competitors and spectators are prohibited for safety reasons.

EYE & EAR PROTECTION...All competitors must wear eye and ear protection while on the line. Eye protection is required to be worn by **everyone** while on the range.

D.Q. POLICY...Violation of safety and sportsmanship rules anywhere on the Holmen Rod & Gun Club facility will result in match disqualification. This applies to side matches, vendor tent, function fire and sign-in areas as well as the match stages.

CHRONOGRAPH...The chronograph is scheduled like a regular stage. Report to the chronograph with the rest of your squad as indicated in the squadding schedule. Expect ammunition to be tested at least twice, once when you report to the chronograph, and once by random sampling. If you are randomly selected to be retested, you must report to the chronograph the same day. Ammunition must make declared power factor at all times during the match. If you fail to report to the chronograph for the scheduled test or after a random sampling, your scores will all be recorded as scoring minor. At the chronograph station, do not handle your gun until instructed by the CRO. You will be directed to place your unloaded gun on the shooting bench, slide locked back (if possible), muzzle pointed down range. The CRO may require that several fouling rounds supplied by you be fired into the berm under his direction before actual chronographing begins. Once the CRO begins chronographing your ammo, you may not add, adjust, or alter anything on your gun until after chronographing is finished. If the chronographer notices your gun does not meet safety criteria (inoperable safety, doubling, etc.), the Range Master will be called and you will not be permitted to continue in the match until the gun is rechecked and proven safe.

Match Briefing (cont)

IMPENETRABLE...All targets, no-shoots, vision barriers, and hard cover zones are impenetrable to a full bullet diameter. Bullets holes that are partially or fully in the nonscoring border will score according to the circumstance. All walls, barricades, vision barriers and other props are considered hard cover unless otherwise noted (4.1.4.1).

FAULT LINES...No part of a competitor's body may touch the ground on the far side of a fault line or outside a shooting box while shooting. The match staff will assert that competitive advantage has been gained in the event of any fault – CROs, ROs, and the RM will not entertain debates as to whether an advantage was gained.

TARGETS...Cardboard IPSC targets, Cardboard Classic targets, Pepper Poppers, US Poppers, and plates of various styles and sizes are used in this match. No-shoot targets are white.

METAL TARGET CALIBRATION...If a steel target has failed to fall and appears to be out of calibration, challenge it during the scoring. It will be checked and if recalibrated, a reshoot is required for that stage. If a popper has been shot down, it is asserted to be calibrated. Poppers are calibrated with 9mm Parabellum loads chronographed to a power factor as close as possible, but not less than 125.

HANDICAPPED SHOOTERS...Competitors may request a penalty in lieu of the stated course requirements by reason of incapacity of previous injury. This must be requested prior to shooting the stage. The Range Master or the CRO only will accept any such requests and the RM will make the decision as to what penalty will apply.

MATCH SCORING...The championship will use the USPSA Scoring Program EzWinScore, latest version. Competitor classifications will be updated prior to commencement of the match with the latest available downloadable data from the USPSA EzWinScore Support Page website. The match data-center is closed to all persons except R.O.'s and other match personnel. Match results will be posted at various times during the match and after the match is concluded. Final results will be posted to USPSA National Web Site and the Wisconsin Shooters Web Site, www.wisconsinshooters.com. If there are scoring questions, first check your math, including power factor (Remember that Production is **always** scored minor!) if there is still a scoring question, take your score card copy to Shooter Services.

ARBITRATION...Arbitrations are initiated with the presentation of a \$85 cash fee and the completed arbitration form delivered to the Match Director or Range Master within one hour of the incident. Forms are available at each stage or from Shooter Services. Appeals will not be accepted after the one-hour filing time has lapsed. Please read and comply with the provisions of Section 11 before filing.

COMPETITOR AGREEMENT... By competing in this event, you attest that you have read, you understand and you agree to comply with the match rules and regulations.

Match Briefing (cont)

DRAWINGS & DIMENSIONS...Drawings and dimensions shown in this booklet are approximate and may change due to safety or production considerations. There may be additional no-shoots, vision barriers, or other changes. Inspect each stage carefully and listen to the squad briefing.

SHOOTER SERVICES...The Shooter Services Director will be on the range to help with any administrative matters, resolve scoring errors, arbitration assistance, lost and found, etc.

BULLETIN BOARD...Current scores, arbitration committee decisions, lost items, schedule changes, and other official information will be posted by the trap scoring building, directly across from the rec. hall. Please check regularly.

Range Facilities

Rest Rooms...Portable toilets are located conveniently around the range. Permanent facilities, including a shower are also available.

Food Service...Food and Beverage available for purchase

Parking...Competitors may park in designated parking areas. There is no parking on the range roads. GUN HANDLING IN THE PARKING AREA IS PROHIBITED. Safety areas will be available to bag and unbag guns.

Spectators...Everyone must wear eye protection while on the range and ear protection is strongly suggested. Climbing on berms is not allowed. Children must be under the direct supervision of a parent.

Exhibits...Vendor exhibits, featuring many different suppliers to our sport, will be located under the covered area at the pavilion and/or near the various stages. Only Sponsors of the Championship and invited vendors are allowed display areas on the range. Please acknowledge and thank them for their generous support.

Prize Table

Donated and purchased prizes will be awarded on a random basis. Prize drawing will take place before awards ceremony on Sunday. A ticket will be included, in the shooter packet, to claim prize at the drawing. If a shooter can't be present for the drawing, they may appoint someone to claim a prize on their behalf.

Trophies and Awards

Trophies

Trophies will be awarded to the Division winners in all 6 Divisions (Open, Limited, Limited 10, Production, Revolver, & Single Stack)

Trophies will be awarded to Class winners (M-D) on a 1 to 3 ratio,

Example: 3 shooters in a class (1st place awarded), 6 shooters in a class (1st & 2nd place awarded), 9 shooters in a class (1st, 2nd, & 3rd place awarded).

No awards will be issued past 3rd place.

Trophies will be awarded to Category winners (Lady, Senior, Super-Senior, & Junior) in each division on the same 1 to 3 ratio, example: 3 shooters in a category (1st place awarded), 6 shooters in a category (1st & 2nd place awarded), 9 shooters in a category (1st, 2nd, & 3rd place awarded). No awards will be issued past 3rd place.

Directions to the Range

From Interstate 90 go North on US Hwy 53/State 35 (Exit #4).

Follow until the freeway ends and continue straight until you come to County Road T (just past Drugans).

Turn **right** onto County Road T.

The entrance to HRGC will be on the right-hand side of the road and is only about 1/4 - 1/2 mile.

Stage 1

Closed Case

RULES: Practical Shooting Handbook, Latest Edition

COURSE DESIGNER: Ronnie Casper

START POSITION: Sitting in chair, palms of hands flat on Xs. Handgun loaded as per ready condition 8.1.1 and 8.1.2. Handgun in briefcase on side – not artificially propped, muzzle pointing downrange; briefcase is closed but not latched.

STAGE PROCEDURE

At the signal, retrieve gun and engage targets as they become visible, within fault lines.

Swinger is not a disappearing target and remains visible.

SCORING

SCORING: Comstock, 15 rounds, 75 points

TARGETS: 6 IPSC, 1 PP, 2 Plates

SCORED HITS: Best 2 per IPSC, steel down = 1A

START-STOP: Audible - Last shot

PENALTIES: Per current edition of USPSA Practical Shooting Handbook

SETUP NOTES:

PP activates swinger.

RO NOTES:

Maintain target and prop position integrity throughout the match.

Stage 2

Water Can

RULES: Practical Shooting Handbook, Latest Edition

COURSE DESIGNER: Ronnie Casper

START POSITION: Standing facing downrange with toes touching Xs, holding water can in strong hand. Handgun is loaded and holstered.

STAGE PROCEDURE

At the signal engage targets as they become visible, within fault lines.

SCORING

SCORING: Comstock, 28 rounds, 140 points

TARGETS: 12 IPSC, 4 USP

SCORED HITS: Best 2 per IPSC, steel down = 1A

START-STOP: Audible - Last shot

PENALTIES: Per current edition of USPSA Practical Shooting Handbook

SETUP NOTES:

Set paper targets to 5 feet high at shoulders.

RO NOTES:

Maintain target and prop position integrity throughout the match.

Shooters Connection

Stage 3

Plates Enough

RULES: Practical Shooting Handbook, Latest Edition

COURSE DESIGNER: Ronnie Casper

START POSITION: Facing downrange, wrists above respective shoulders, standing outside shooting area with toes touching either set of Xs. Handgun is loaded and holstered.

STAGE PROCEDURE

At the signal engage targets as they become visible, within fault lines.

SCORING

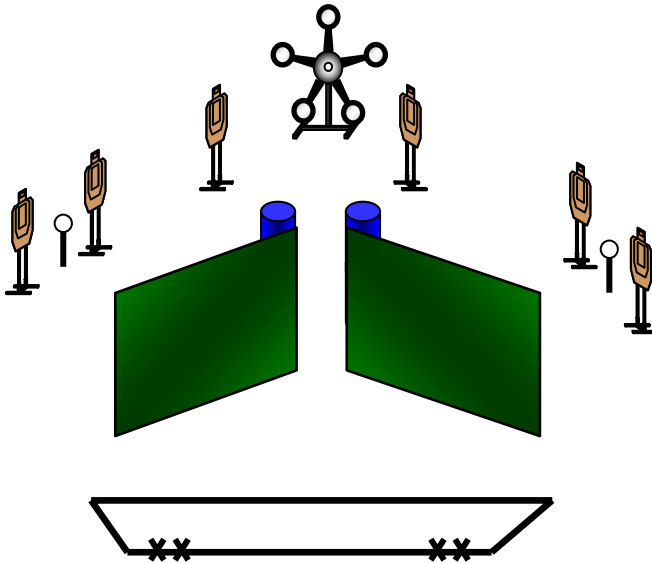

SCORING: Comstock, 19 rounds, 95 points

TARGETS: 6 IPSC, 7 Steel Plates

SCORED HITS: Best 2 per IPSC, steel down = 1A

START-STOP: Audible - Last shot

PENALTIES: Per current edition of USPSA Practical Shooting Handbook

SETUP NOTES:

RO NOTES:

Maintain target and prop position integrity throughout the match.

Chronograph

CHRONOGRAPH...The chronograph is scheduled like a regular stage. Report to the chronograph with the rest of your squad as indicated in the squadding schedule. Expect ammunition to be tested at least twice, once when you report to the chronograph, and once by random sampling. If you are randomly selected to be retested, you must report to the chronograph the same day. Ammunition must make declared power factor at all times during the match. If you fail to report to the chronograph for the scheduled test or after a random sampling, your scores will all be recorded as scoring minor.
